

Nintendo Joy Con Pair Neon Red Blue

Product Overview

The Nintendo Joy Con pair is a versatile set of controllers designed for the Nintendo Switch console. These controllers can be used attached to the console in handheld mode, connected to the Joy Con grip for traditional gameplay, or used individually for multiplayer sessions. Each controller includes motion sensing technology and HD rumble features that enhance gameplay interaction. The Joy Con controllers allow players to experience flexible gaming scenarios, including cooperative and competitive multiplayer games. The product is supplied by Nintendo and can be delivered through standard courier services. The approximate price of the controller pair is 79.99 euros.
